

Step in the right direction

Reduce the threat of contamination with Forensic Pathways' award winning Anti-contamination Stepping Plates.

Maximise the opportunity to preserve and collect evidence.

For many years Forensic Science has been proactive in identifying "obvious evidence" at crime scenes. However with significant advances, it is now possible to detect evidence which is not only extremely delicate, but also invisible to the naked eye. It is now standard to use Stepping Plates at all major scenes in order to create a pathway through a scene thereby ensuring a methodical, clinical approach to the preservation and gathering of trace evidence.

Our award winning transparent Anti-contamination Stepping Plates are available in two sizes and in a range of kit combinations dependent upon client need.

FORENSICPATHWAYS

Benefits

- Transparency
- Lightweight
- Stackable
- Easy to clean
- Microscene Protector
- Maximise the opportunity to preserve and collect evidence
- Demonstrate professional standards in the prevention of cross-contamination

Plates should always be used in conjunction with our Rubber Pad Kits (small rubber pads which are applied to the feet of each Stepping Plate which can then be removed at the end of the investigation and bagged and tagged for any evidence). Non-slip overshoes are also recommended.

ORDER NO	DESCRIPTION
SP350	Standard Stepping Plate 350 x 350
SP150	Stair Plate 350 x 150
SSPK	Standard Stepping Plate Kit Includes: 1 Heavy Duty Trolley Easy Clean Polybox 16 Standard 350 x 350 Plates 150 Rubber Pads (Large) Protocols and Specifications
MSPK	Multi Stepping Plate Kit Includes: 1 Heavy Duty Trolley Easy Clean Polybox 14 Stair Plates 350 x 150 14 Standard Plates 350 x 350 150 Rubber Pads (Large) 150 Rubber Pads (Small) Protocols and Specifications
SBPK	Standard Backpack Kit Includes: 1 Backpack/Holdall 6 Standard Plates 350 x 350 150 Rubber Pads Protocols and Specifications
